Market Gardeners'

WHOLESALE CATALOG

High Grade Seeds, Implements, Fertilizers, Twines, and Market Gardeners' Requisites

In presenting our 1947 catalog, we desire first of all to thank our customers for the business entrusted to us last year and for the many fine testimonials received. A goodly number state that all the seeds came up to or surpassed expectations and produced excellent crops.

Never was the need for high grade seeds greater than it is today. With cost of operating being extremely high it is obvious that losses of crops due to poor seeds must be avoided. When you use SLUIS' SEEDS you get, at no extra cost, the benefit of 38 years experience in growing and selecting better varieties. In addition, we test all our seeds right in our own plant and show germination on every package or bag.

Stocks of seeds, insecticides and rubber bands are plentiful, with prices on a downward trend. Implements are still hard to get, but the outlook is improving. We believe a fair supply will be available next spring. Demand for fertilizer is so great that manufacturers are unable to handle all of it in time. The situation on jute twine looks very bad. Due to a short crop of jute fiber in India, plus general unrest in that country, shipments have been delayed and the mills in this country are suffering from lack of materials. However, there is enough cotton twine to help out.

We shall be glad to serve you at any time.

N. SLUIS & SONS

TERMS AND CONDITIONS

All Prices Quoted are Subject to Change at Any Time Without Notice

ORDERING. If possible use our order sheet. Additional order sheets will be sent on request.

Be sure to fill in your name and address. Write plainly; English, Holland or German may be used, for expressions or correspondence.

PAYING. All bills are due August 1st next, unless other agreements are made. Overdue accounts will draw interest at the rate of six per cent (6%) per annum.

Credit will be extended to regular customers, providing your account is in good standing.

New customers, applying for credit, will please send paid seed bills of two previous years to prove good standing elsewhere.

Orders for C. O. D. shipments will have prompt attention if 25% of the amount is sent with order.

On spring orders for Garden Seeds we allow 10% discount if paid before April 1st. All other items are net cash. Orders received after April 1st are not subject to discount. No charge for bags at any time.

Delivery. No extra charges for delivery within a radius of 50 miles from Chicago. Orders placed before 11 a. m. will go out the same day.

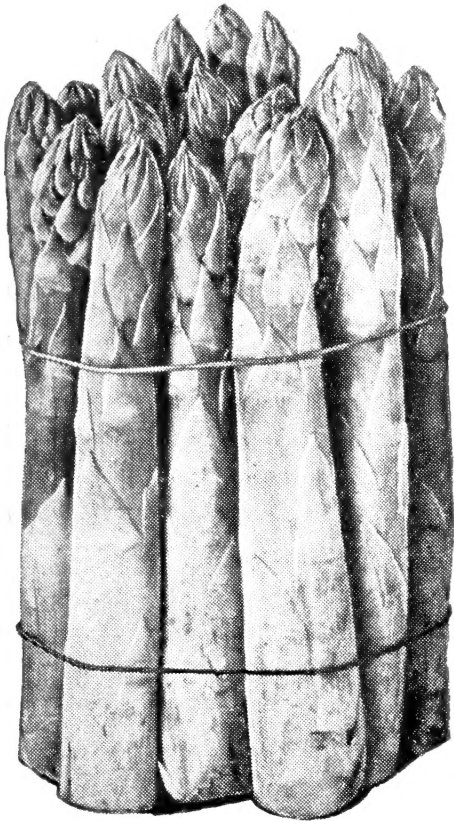

SHIPPING. Shipments can be made by freight, express or parcel post. If no instructions are given, we will use our own judgment. We will prepay FREIGHT shipments of Seeds up to a distance of 500 miles from Chicago. On EXPRESS shipments the customer pays transportation charges on arrival of goods, but we do allow the freight rate on the invoice. Implements, Glass, etc., are quoted and shipped f. o. b. Chicago.

Be sure to note condition of bags on arrival; if torn, have it marked on your freight bill; if spilled out, have the bags weighed and weight also noted on freight bill, otherwise it will be impossible to recover damages.

If for any reason an order or part of an order cannot be filled, we will refund amount sent for such order or part of such order.

WARRANTY. The N. Sluis & Sons Company gives no warranty, express or implied, as to the productiveness of any seeds or bulbs it sells and will not be in any way responsible for the crop. Our liability, in all instances, is limited to the purchase price of the seed.

Cabbage

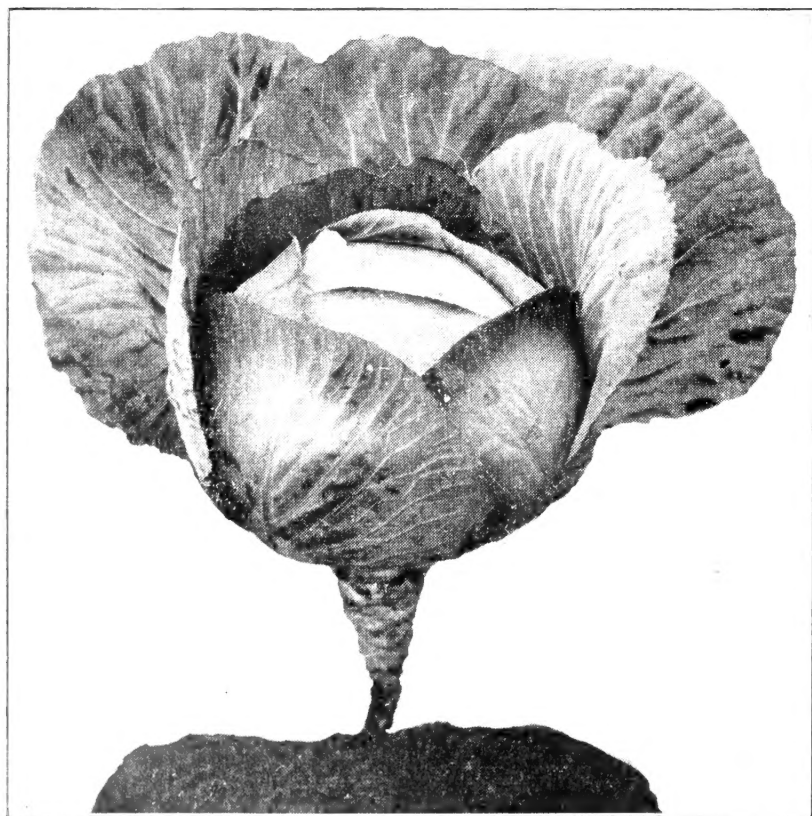

The varieties of Cabbage listed in this column are disease-resistant types. We recommend them as worth while to grow.

	Oz.	¼ lb.	Lb.
Golden Acre Disease Resistant. The best early sort: heads are round, medium sized	\$0.80	\$3.00	
Resistant Detroit. Excellent for early crop. Medium sized, round heads80	3.00	
Marion Market. A splendid early sort for diseased soils. Heads are round, stem short50	1.50	5.00
Resistant Copenhagen. Heads round, dark green80	3.00	
Globe. Selected from Glory of Enkhuizen. Heads are round, large and solid. Second early ..	.60	1.80	6.00
Wisconsin All Seasons. Second early, drumhead shape, heavy yielder45	1.40	4.50
Feverless Late Summer. For late summer and fall crop. Large semi-flat heads45	1.40	4.50
Wisconsin Ballhead60	1.80	6.00
Wisconsin No. 860	1.80	6.00
Wisconsin Hollander. Late sort of Danish Ballhead and Hollander type. Heads round and very solid60	1.80	6.00
Bugner Winter. Best variety for winter keeping. Heads drumhead shape, dark green. We have the genuine strain90	2.75	9.00
Red Hollander. For late summer and fall crop. Medium sized heads, ball shaped and solid ..	.80	2.50	8.00

Green Acre Cabbage

	Oz.	¼ lb.	Lb.
Early Bird. An extra early selection of Golden Acre. Heads are round and uniform. Small outer leaves	\$0.60	\$1.80	\$6.00
Green Acre. Similar to Golden Acre except for dark green color which makes it more attractive60	1.80	6.00
Golden Acre40	1.20	4.00
Early Jersey Wakefield35	1.00	3.25
Charleston Wakefield35	1.00	3.25
Copenhagen Market, True. A few days later than Golden Acre. Heads are large40	1.20	4.00
Danish Ballhead Short Stem45	1.40	4.50
Holland Short Stem45	1.40	4.50
Penn State Ballhead50	1.50	4.75
Oakview Ballhead. Late maturing, round heads, dark green60	1.80	6.00
Highland Ballhead. Late sort: large, dark green, solid heads. Excellent for storage.60	1.80	6.00
Ferry's Hollander60	1.80	6.00
Mammoth Red Rock. Our strain is supreme. Large heads, dark color and solid.50	1.50	5.00
Chicago Red Rock. The best red Cabbage for early crop: large, semi-flat heads70	2.20	7.00
Red Acre (Early)60	1.80	6.00
Chieftain Savoy. A new early sort. Color dark olive-green; drumhead shape50	1.50	5.00
Long Island Savoy50	1.50	5.00
American Savoy50	1.50	5.00

Bugner Cabbage

With Cabbage Seeds in Short Supply it is Desirable to Place Orders Early

CAULIFLOWER

The importance of good seeds cannot be over-estimated in the growing of Cauliflower. Being a one-season crop the seeds must be good or all the labor of seeding, planting and cultivating will be wasted. It is therefore not surprising that many growers place their orders with us **every year**.

	Oz.	1/4 lb.	Lb.
Chicago Snowball. The most dependable sort for early crop. First offered by us in 1927, it still is the leading variety today for hotbed seeding. Matures evenly, producing snow-white heads	\$3.00	\$9.00	\$32.00

Extra Early Snowball. Matures a few days later than Chicago Snowball. Heads are larger and heavier	2.75	8.25	28.00
---	------	------	-------

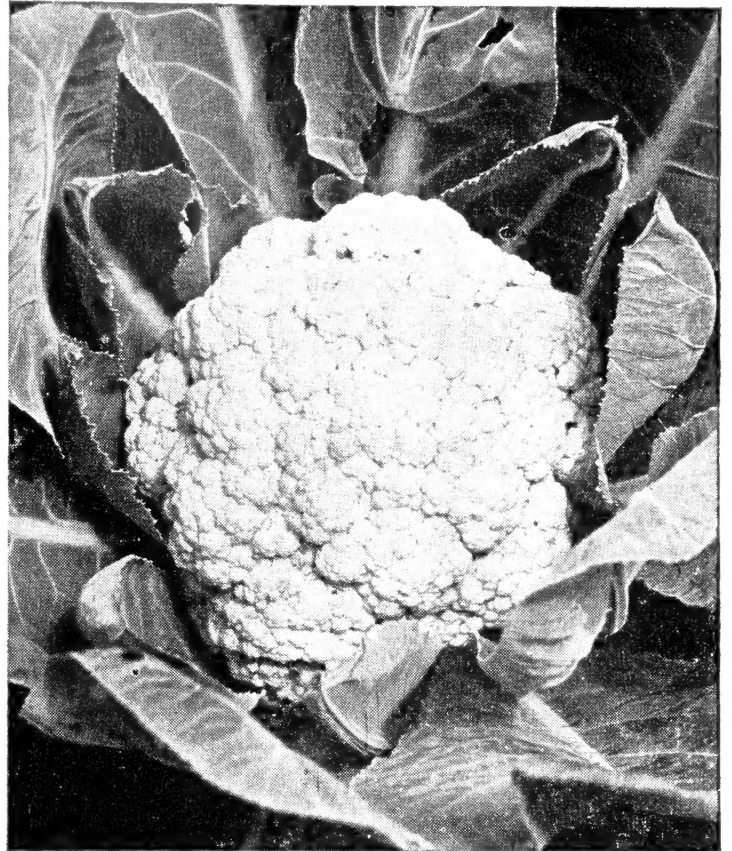

New Michigan Snowball. A splendid sort for early and fall crops. The heads are very uniform and exceedingly compact. Has given excellent results ..	3.00	9.00	32.00
--	------	------	-------

Large Late Snowball. Introduced more than 25 years ago, this variety still is much in demand. The heads are large and heavy, and the color is always a beautiful white. Recommended for fall crop only ...	2.75	8.25	28.00
---	------	------	-------

Normandie. This is an exceptionally fine strain of Snowball, selected for weight and solidity of head. It is so uniform in maturity that nearly all the heads are ready in two weeks after the first cutting. Should be used chiefly for fall crop ..	3.00	9.00	30.00
--	------	------	-------

White Mountain Cauliflower
Note the remarkable depth of the head

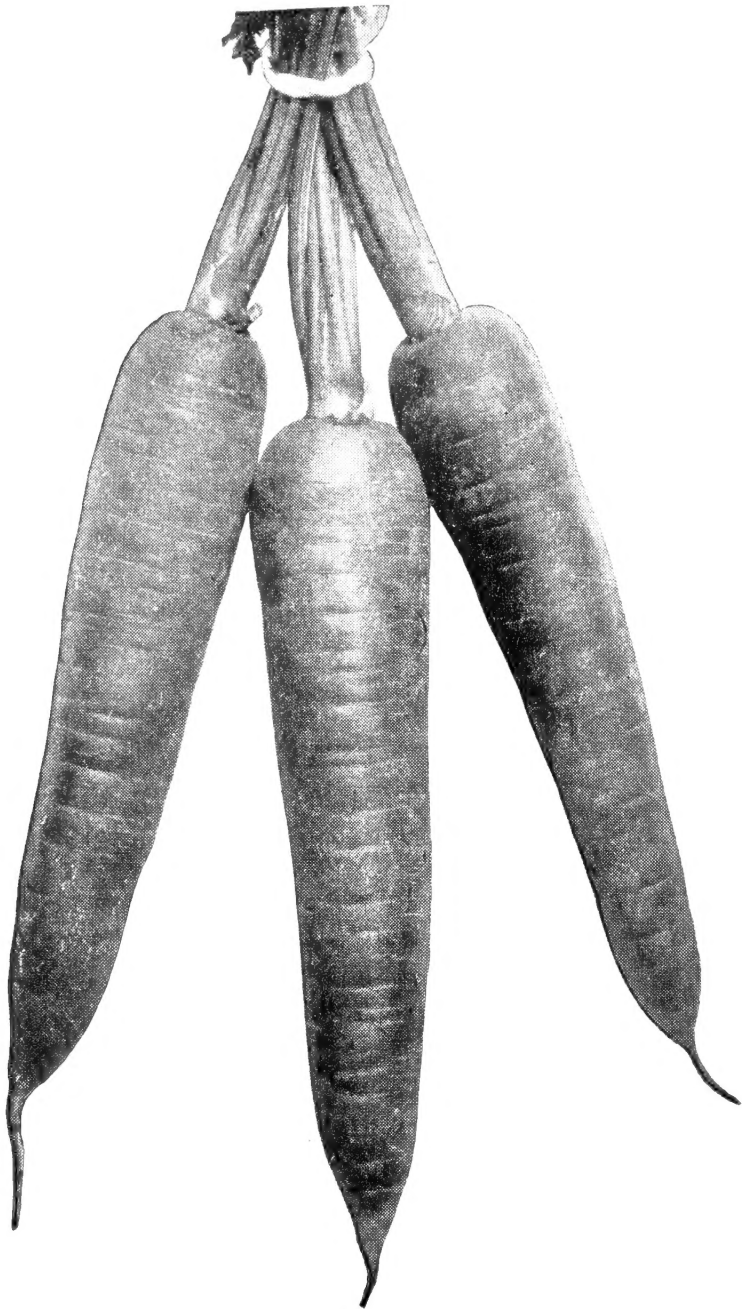

Chicago Snowball Cauliflower

	Oz.	1/4 lb.	Lb.
Catskill Snowball. Quite similar to our Large Late Snowball. Popular in New York State for fall crop	\$2.75	\$8.25	\$28.00

White Mountain. The most recent introduction in Cauliflower for fall crop. No other sort has found favor with the growers so quickly. With irrigation our strain has produced as high as 98% U. S. No. 1 marketable heads. It surpasses all others in size and tonnage per acre	3.00	9.00	30.00
--	------	------	-------

Purple Beauty. An Italian Cauliflower which produces small heads of a greenish purple color. Should not be grown extensively as the demand for it is too small to absorb large quantities	1.50	4.50	15.00
--	------	------	-------

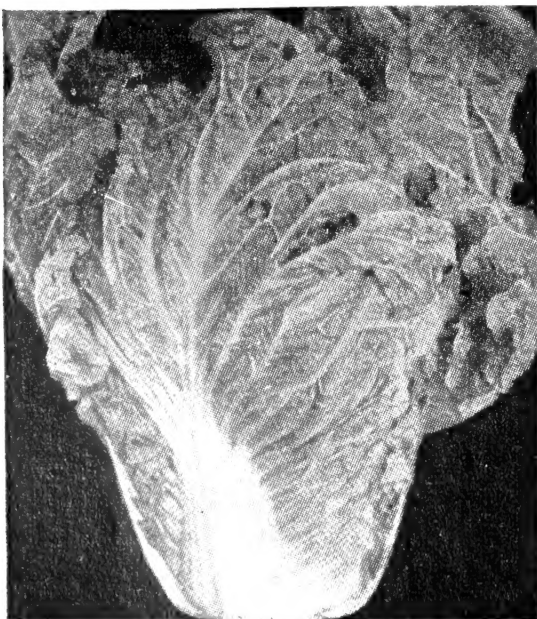

Our Cauliflower seeds are grown from fully developed heads. By careful selection and scientific breeding a strain is obtained that is unsurpassed by any other. Regardless of price, there is none better.

Greater Chantenay Carrot

Chinese Cabbage
OR CELERY CABBAGE

	Oz.	1/4 lb.	Lb.
Wong Bok	\$0.25	\$0.75	\$2.50
Chihili. Most popular sort25	.75	2.50

Wong Bok Celery Cabbage

Chihili
Celery Cabbage

Carrot

	Oz.	1/4 lb.	Lb.
Extra Early Coreless. One of the sweetest Carrots grown. Color orange, stump rooted. Used for bunching and busheling ...	\$0.15	\$0.50	\$1.60
Nantes. Extra fine. We have the true stock of this popular Carrot. For spring, summer or fall use it has no equal. The tops are medium, the roots average 7 inches in length, and the color is an attractive orange15	.50	1.60
Strong Top Nantes. Similar to our Nantes, except that the tops are much heavier, which prevents the Carrots from breaking off in handling15	.50	1.60
Nancy. A cross between Nantes and Chantenay. Strong tops, fine shape and good color make it ideal for bunching25	.75	2.40
Red Cored Chantenay. A half long Carrot used chiefly for canning. Flesh is dark orange.	.15	.50	1.60
Greater Chantenay. Widely used as a bunch Carrot. Roots are pointed and very smooth15	.50	1.60
Oregon Chantenay. Well liked for bunching and busheling. Roots are orange colored, pointed and exceedingly smooth15	.50	1.60
Imperator or California. Roots are 7 to 8 inches long, tapering, deep orange, tender and sweet15	.50	1.60
Morse's Bunching. Quite similar to Imperator Carrot, but with longer tops for fine bunching .	.15	.50	1.60
Supreme Half Long. Slender, refined Danvers type; excellent color, small red core, tops medium15	.50	1.60
Streamliner. Tops short, dark green. Roots deep orange, 10 inches long15	.50	1.60
Danvers Half Long Selected. The ideal Carrot for winter keeping; stump rooted, dark color. Can also be used for summer and fall bunching15	.50	1.60
Hutchinson. A favorite with muck land growers for bunching. Uniform root; medium length, sturdy leaves20	.60	2.00
Long Orange. For stock feeding .	.15	.50	1.50

Cardoon

	Oz.	1/4 lb.	Lb.
Large Smooth	\$0.90	\$3.00	\$9.00

For Bunching, Busheling or Canning Trade Use Oregon Chantenay Carrot

Celery

Yellow or Golden Varieties

	Oz.	¼ lb.	Lb.
Giant Golden Plume. A Jersey-grown strain which grows 4 to 5 inches taller than regular Golden Plume. Very vigorous, with heavy stalk and heart. Top leaves are a greenish color; stalks golden yellow	\$2.00	\$6.75	\$25.00
Tallest Jersey Plume. One of the hardiest Plumes; highly resistant to "Yellows Disease" on the older soils. Its uniformity is liked by growers who pack "dozens." We urge you to try it	2.00	6.75	25.00
Jersey Plume No. 4. A sturdy, resistant Plume. Foliage dark green, yellow stalk, medium tall. Recommended for early greenhouse use	2.30	8.00	30.00
Golden Plume. Regular strain; heavy and solid90	3.00	10.00
Tall Non-Bolting Golden Plume. Possesses all the firmness of the mother strain, together with 4 inches greater height and excellent quality	1.50	5.50	20.00
Cornell No. 19. A cross of "Old Golden" and Giant Pascal. Superior quality; rounded stalks; full hearted with only a slight rib. Highly resistant to "yellows." Try it for main crop	1.40	4.50	15.00
Golden Self-Blanching, Special TALL Strain. An exceedingly uniform and hardy sort. Has a better heart and heavier stalk than most of the tall strains offered by others. Widely used and is an excellent shipper. Demanded by cold storages ...	1.10	4.00	12.00

Giant Golden Plume Celery

	Oz.	¼ lb.	Lb.
Ivory Pascal. New strain of great merit for summer or fall crop. Creamy ivory stalk that shines; very brittle with a Pascal flavor. Quality supreme	\$1.80	\$6.50	\$24.00
Golden Prize. A valuable early sort; medium tall, good golden color; is noted for its bulging heart, thick stalks and heavy joints. Our strain runs uniform.	1.80	6.50	24.00

Green Varieties

	Oz.	¼ lb.	Lb.
Summer Pascal. Excellent for summer and fall bunching. Stalks are well rounded, solid and brittle. A fine strain	\$1.10	\$4.00	\$12.00
Utah State Certified. The finest keeper ever grown. Unsurpassed by any other green Celery. Hearts golden yellow, brittle and no strings. Also used in the greenhouse for early shipping in the "Tinted Green" stage..	1.50	5.50	20.00

	Oz.	¼ lb.	Lb.
Newark Market. Thick and heavy late green. A robust grower..	\$0.90	\$2.75	\$ 9.00
Easy Blanching, Special. Medium tall sort for early trenching; solid heart; fine flavor75	2.40	8.00
Giant Pascal. Also a good variety for trenching60	1.75	6.00

Celeriac

Or TURNIP-ROOTED CELERY

	Oz.	¼ lb.	Lb.
Apple-Shaped	\$0.60	\$1.80	\$6.00
Large Smooth Prague60	1.80	6.00

Collards

	Oz.	¼ lb.	Lb.
True Georgia	\$0.10	\$0.30	\$0.90

Chicory

	Oz.	¼ lb.	Lb.
Large Rooted	\$0.40	\$1.20	\$4.00
Brussels Witloof. Amer. grown.	.40	1.20	4.00
Radichetta (Italian Dandelion) ..	.40	1.20	4.00

Many Markets Still Demand Tall Strain Golden Self Blanching. We Have the Pure Strain

Onion

1/4 lb. Lb. 10 lbs.

Riverside Sweet Spanish. Originated at Riverside, California, several years ago. The bulbs grow to large size and are dark bronze colored. When grown on heavy land they will keep well over winter	\$2.00	\$6.50	\$63.00
Yellow Valencia. A Spanish variety of great merit. Bulbs are very large; beautifully shaped.	2.00	6.50	63.00
Sluis & Sons' Yellow Globe. The finest Yellow Globe Onion to be had. It has several skins of a beautiful dark color; a heavy yielder and long keeper.	1.10	3.70	35.00
Yellow Globe, Brigham Strain. The favorite sort for muck land. Color and keeping qualities unexcelled	1.10	3.70	35.00
Early Yellow Globe. This Onion matures about 2 weeks before other Globe Onions. It has a good skin and the color is an attractive yellow. Well liked in the northern districts because it reaches the ripening stage before thrips and other insects make their attacks. Recommended for muck soil	1.50	5.00	48.00
Ohio Yellow Globe. Also called Michigan Yellow Globe. Produces good sized bulbs of fine quality	1.10	3.70	35.00
Buckskin Yellow Globe. Used on muck land. Produces very hard bulbs with tight skin. Splendid keeper	1.50	5.00	48.00

Yellow Valencia Onion

Brigham Yellow Globe Onion

1/4 lb. Lb. 10 lbs.

Yellow Globe Danvers. Popular in some districts on account of its deep color and solidity ...	\$1.10	\$3.70	\$35.00
Golden Globe. Excellent for sets. Bulbs are straw colored and have the true globe shape. No other strain has as good keeping qualities	1.00	3.20	30.00
Japanese or Ebenezer. Used for sets. Light yellow flat bulbs ..	1.00	3.10	29.00
Red Wethersfield. Used for sets. Dark red, flat bulbs	1.25	4.00	38.00
Southport Red Globe. Large, round, blood-red Onions; wonderful keeper	1.40	4.50	43.00
Early White Pearl. A small pickling variety	1.45	4.70	45.00
Crystal White Wax. Early sort for pickling only	1.45	4.70	45.00
White Ebenezer	1.20	4.00	38.00
White Portugal. Also called Silverskin. Used mostly for sets. Onion is flat and keeps well over winter	1.40	4.50	43.00
White Spanish. Produces bulbs of large size; color creamy white	1.70	6.00	58.00
White Bunch. Best sort for bunching. True stock	1.40	4.50	43.00
Japanese White Bunching. Used by a few growers for summer bunching. Has a strong odor and flavor. Is hardy	1.50	5.00	48.00
Southport or Ideal White Globe. The best sort for growing large white Onions. Also used as an early bunch Onion	1.50	5.00	48.00

ONION SETS (Bu. 32 lbs.)

Pepper

SWEET VARIETIES

	Oz.	¼ lb.	Lb.
Apple-Shaped Pimento. The fruit is apple or tomato shaped; color green, changing to bright red when ripe	\$0.65	\$2.00	\$6.50
California Wonder. Large green Pepper with thick sidewalls. Yield moderate70	2.20	7.00
Calwonder. A thick-walled, heavy Pepper. Earlier and more prolific than California Wonder..	.80	2.40	8.00
Chinese Giant. The largest of all; stays green until late; in our locality the yield is light.....	.75	2.50	7.50
Magnum Dulce65	2.00	6.50
Harris Early Giant60	1.80	6.00
King of the North. Plants yield a good number of medium sized fruits. Special stock65	2.00	6.50
Oakview Wonder. A splendid selection of California Wonder with extra thick flesh. Plants medium size; fruits large, heavy and numerous70	2.20	7.00
Oshkosh. A medium early sort; glossy green turning to canary-yellow when ripe. Fruits are smooth without lobes, tapering to a blunt point85	2.50	8.50
Rocky Ford. Sweet, large and early.	Crop failed		
Sweet Mountain. Popular in some sections as an early red Pepper.	.65	2.00	6.50
Improved Worldbeater. Wilt resisting strain; fruits mature early and are large in size60	1.80	6.00
Sweet Banana65	2.00	6.50

HOT VARIETIES

Chicago Finger. Much used on the Chicago market; fruits 2½ inches long, ¾ inch thick at shoulder, tapering to a sharp point. Plants dwarf; very prolific	.90	3.00	9.00
--	-----	------	------

Long Hungarian Pepper

	Oz.	¼ lb.	Lb.
Long Hungarian. Plant short and highly productive; fruits 5 to 6 inches long, 1 inch thick at shoulder, tapering to a sharp point. Color waxy yellow turning to bright red when ripe ..	\$0.65	\$2.00	\$6.50
Long Red Cayenne. Large plant bearing fruits 4 inches long, ½ inch thick at shoulder. Color deep green becoming red at maturity50	1.50	5.00
Narrow Red Cayenne50	1.50	5.00
Red Chili. Plant short and bushy. Fruits upright, very numerous, 2 to 2½ inches long, ¾ inch thick at stem, yellowish green turning red50	1.50	5.00
Floral Gem. Heavily productive and pungent. Fruits 1½-2 inches long, 1 inch thick at shoulder, tapering to a blunt point. Waxy green turning to bright red60	2.00	6.00

Calwonder Pepper

Pumpkin

	Oz.	¼ lb.	Lb.
Connecticut Field (Big Tom). The standard field Pumpkin, grown for pies, canning and stock feed. Fruits large, flattened at both ends, weigh 15 to 30 lbs. each. Skin deep orange, flesh orange-yellow ..	\$0.15	\$0.40	\$1.25
Large Cheese or Kentucky Field ..	.10	.30	1.00
Small Sugar or Pie. Early and prolific. Fruits 5 to 6 lbs., deep orange, round15	.40	1.35
Striped Cushaw. Grown primarily for stock feeding15	.40	1.35
Dickinson. Excellent for pies. Skin buff-tan color; flesh bright orange; large size fruits15	.40	1.35

Growers and Buyers Both Like the Hard-Shell Fruits of Calwonder Pepper

Radish

Because of the large variation in soils, allow us to recommend a type to meet your growing conditions. (See below.)

	1/4 lb.	Lb.	10 lbs.	100 lbs.
Early Scarlet Forcing. When grown in the greenhouse a medium top develops on this bright red, uniform strain, which is round and very smooth. Makes short top outdoors for summer seeding. For sand and heavier soils	\$0.30	\$0.90	\$8.50	\$75.00
Scarlet Globe, Oregon. A hardy strain that stands the cold weather better than any other early sort. Used mainly for first and second seedings. Has strong top; deep red color, olive shaped and hard. For sand and heavier soils30	.85	8.00	70.00
Scarlet Globe, Vick's. An early type similar to Oregon. Regular top. For earliest muck seedings and heavy land ..	.30	.85	8.00	70.00
Cavalier. Bright red color; small top; fast grower; suitable for all types of soil during the hot weather months ..	.30	.90	8.50	75.00
Scarlet Globe, Short Top. A money-maker for our growers in recent years; short, sturdy top and solid, olive shaped, pure red bulb. Used mainly for hot weather seedings on muck and sand30	.85	8.00	70.00
Scarlet Globe, Summer Short Top. Recommended only for muck land. Takes the prize for uniformity, even bright red color and short, strong tops. None better for summer use30	.90	8.50	75.00
Long White Icicle, or Lady Finger. A long white; slender; very juicy and brittle30	.90	8.50	75.00
White Icicle, Short Top. Similar to Long White Icicle, but much shorter top, which makes it desirable for summer seeding30	.95	9.00	80.00

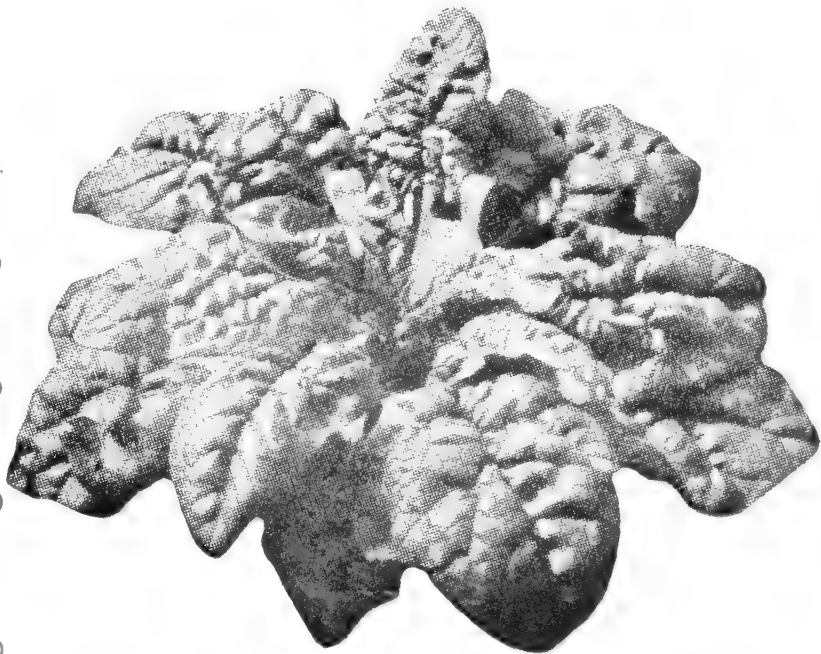

Scarlet Globe Radish

	1/4 lb.	Lb.	10 lbs.
White Tip Sparkler. The upper half of this Radish is bright red, the lower half pure white. 100 lbs., \$80.00...	\$0.30	\$1.00	\$ 9.00
Giant White Stuttgart. Root is top-shaped and solid for a long time; flesh is pure white30	1.00	9.50
White Strasburg. The root is 7 to 8 inches long, 2 inches thick at shoulder; flesh white30	1.00	9.50
Long White Vienna. (Use Long White Icicle instead)			
Grand Rapids Forcing. Similar to Early Scarlet Forcing30	.90	8.50
Crimson Giant. Roots large, deep crimson25	.85	8.00
Long Bright Scarlet. Roots 5 inches long, carmine-red25	.85	8.00
Long Black Spanish. Flesh white and solid, skin black; grows 7 to 9 inches long, 2 inches thick30	1.00	9.00
Round Black Spanish. Root is top-shaped, 3 to 4 inches in diameter, skin black, flesh white. An excellent keeper ..	.30	1.00	9.00

Our Summer Short Top Red Radish is the Best for Summer Seeding

Spinach

	1/4 lb.	Lb.	10 lbs.
Blight Resistant Savoy. This variety is much in demand, due to its blight-resisting qualities..	\$0.20	\$0.60	\$5.00
Special Summer Savoy. Dark and crumpled; fine for summer20	.65	5.50
Re-Selected Bloomsdale. Dark leaved, curly; grows quite erect; a valuable early sort20	.60	5.00
Giant Smooth-Leaved. Much in demand for first crop. Leaves are medium green and very large20	.65	5.50
Large Round Leaved. An extra large sort; leaves are medium green and smooth; always first in the market20	.60	5.00
Old Dominion20	.60	5.00
Royal Giant. Extra early20	.60	5.00
Long Standing Bloomsdale. Similar to regular Bloomsdale, but stands more hot weather20	.60	5.00
Heavy Pack. Smooth leaved; for early and summer crop; stands the heat well25	.80	7.00
Giant Viroflay. A fine Spinach for spring and fall crop20	.60	5.00
Viking. Leaves are dark and quite smooth; does well in hot weather. Originator's strain ..	.20	.60	5.00

Juliana Spinach

	1/4 lb.	Lb.	10 lbs.
King of Denmark. A real summer Spinach; stands longer than any other variety before going to seed; leaves are long, rather coarse, dark in color ...	\$0.25	\$0.75	\$6.50
Harlem Market. A prickly seeded Bloomsdale; dark green and curly. Fine for spring and summer. Very hardy20	.70	6.00
New Zealand50	1.50	14.00
Juliana. Wonderful summer Spinach; dark leaved, slightly crumpled, slow to seed20	.70	6.00

100 lbs. of one kind, 2c per lb. less.

12 oz. Olive-Drab. Per sq. ft.12

Protect Your Seeds With CUPROCID

Cuprocide is an orange-yellow fine dusty powder used to prevent seed decay. For treating small lots of seeds a glass jar is convenient. Put seeds and dust in jar and shake until seeds are thoroughly coated. For large quantities a barrel may be used.

Amount of CUPROCID for

KIND OF SEED	1 lb. Seed	10 lbs. Seed	100 lbs. Seed
Pea, cucumber, melon, squash and all large seeds	1/6 tsp.	1½ tsp.	3 ozs.
Sugar beets, spinach, eggplant, beet, tomato, lettuce, celery, pepper	1 tsp.	12 tsp.	1½ lbs.
Grass, clover, alfalfa	1 tsp.	12 tsp.	1½ lbs.
Sweet pea, petunia, snapdragon, calendula, zinnia, aster, pansy, etc.	1 tsp.	12 tsp.	1½ lbs.

Seedlings. When plants are grown under crowded conditions, as in greenhouse or hotbed, "damping-off" or "black leg", may attack them at the surface of the soil. To prevent this apply Cuprocide in a water solution in sprinkling can. Sprinkle seed bed right after planting and repeat at intervals. Follow directions on bag. Price: 3-lb. bag, \$2.00.

Crow Repellent

loss of seed and labor of re-planting. It positively will not clog any planter. It is non-poisonous and will not injure the seed or any kind of corn. It is more effective, more convenient to use, and more economical than any other material.

LARGE CAN, \$1.00
(Enough for 2 bu. of seed corn)

SMALL CAN, .60
(Enough for 1 bu. of seed corn)

Protect Your Seed Corn

During the period when it is most easily damaged, by ridding your crop of crows and other corn-pulling birds and animals. It saves

Insecticides and Seed Disinfectants

Arasan. Used dry as a seed treatment to prevent smut and rot in Onions. Also beneficial on Beets and Spinach. Use 1 lb. dust to 10 lbs. of seed. 8-oz. can, 85c; 4-lb. can, \$5.50; 25-lb. drum, \$30.00.

Arsenate of Lead. For all leaf-eating insects. Sticks well to the leaves; can be used wet or dry. 1-lb. pkg., 35c; 4-lb. pkg., \$1.00. Case (48 lbs.), \$9.00.

Black Leaf 40. A solution of Nicotine Sulphate used as a liquid spray only to kill plant lice and other soft-bodied sucking insects; harmless to plants. Full directions with each can. 5-oz. bottle, \$1.10; 1-lb. can, \$2.60; 2-lb. can, \$3.80.

Bordeaux Mixture. Used for spraying against blight and fungous diseases. 1-lb. pkg., 25c; 4-lb. pkg., 80c; case (48 lbs.), \$8.00.

Calcium Arsenate. Used for dusting or spraying cabbage and potato crops. 4-lb. pkg., 75c; case (48 lbs.), \$6.50.

Ceresan, New Improved. Widely known seed disinfectant for Wheat, Oats, Peas and bulbs. 1-lb. can, 80c; 4-lb. can, \$2.90.

Copper Sulphate (Blue Stone). Used mostly for Celery, Grapes and other crops subject to blight; powdered or crystal form. Per lb., 25c; 25 lbs., \$4.00.

Corrosive Sublimate. For treating plants before setting out in field. 1-lb. bottle, \$2.75; 5-lb. box, \$13.25.

Cuprocide. Yellow. See preceding page.

Cyanogas "G." For killing rats and mice in hotbeds or under barns and sheds. 5-lb. can, \$3.25; 25-lb. pail, \$11.00.

DDT Dust 5%. Ready to use for killing Cabbage worms and other insects. 1 lb., 25c; 5 lbs., \$1.00; 50 lbs., \$7.00.

Dusting Sulphur. Used in dusting Grape vines and other crops. 1 lb., 20c; 10 lbs., \$1.50; 100 lbs., \$8.00.

Formaldehyde Dust. Use 1 lb. to 25 lbs. seeds. Do not mix with water. Price: Per lb., 40c.

Nikoteen. A highly effective spray to kill aphids in greenhouse or hotbeds. 1-lb. bottle, \$2.75.

Nicotine Pyrox. For wet spraying only; destroys leaf-eating insects. 20-oz. jar, 65c; 5 lbs., \$2.25; 10 lbs., \$4.25.

Paris Green. A very strong poisonous insecticide for either dusting or spraying. 1-lb. pkg., 60c; 5 lbs., \$2.50; 14-lb. cans, \$6.00.

Pyrocide Dust No. 5. Kills Cabbage worms; for dusting only. 5-lb. pkg., \$1.20; 25-lb. bag, \$4.50; 100 lbs., \$17.00.

Pyrocide Dust No. 10. Double strength. Very effective in combating Cucumber beetles, aphids and many other pests. 5-lb. pkg., \$1.75; 25 lbs., \$6.50; 100 lbs., \$22.00.

Rootone. A hormone root-forming powder. Stimulates growth of roots and cuttings. 2-oz. jar, \$1.00; 1-lb. can, \$5.00.

Semesan. A seed disinfectant used to cure or prevent smut, neck rot and wilt on vegetables and flowers. A 2-oz. can will treat 40 lbs. of seeds. Price: 2-oz. can, 40c; $\frac{3}{4}$ lb., \$2.00; 5 lbs., \$11.75.

Semesan Bel. For treating bulbs, roots and Potatoes. 1-lb. can, \$1.65; 5-lb. can, \$7.15.

Semesan Jr. Used for treating sweet and field Corn seeds. $1\frac{1}{2}$ ozs. will treat 1 bushel of seed. Price: $1\frac{1}{2}$ -oz. pkg., 15c; 12-oz. can, 65c; $6\frac{1}{4}$ -lb. can, \$3.90.

Slug Shot. The old reliable dusting powder for killing Cabbage worms, Potato bugs and other chewing insects. 5-lb. pkg., \$1.25; 25-lb. bag, \$6.00.

Spergon. Treat Beans and Peas with this chemical and prevent decay of seed during the sprouting period and after. 2 ozs. is sufficient for 1 bushel seed. Price: 2 ozs., 45c; 1 lb., \$2.50.

Tartar Emetic. Used with brown sugar in water to kill thrips on Gladiolus and Onion. 1 lb., 90c; 10 lbs., \$8.50.

Transplantone. Dip roots of plants in a solution of 1 teaspoonful of this chemical to 10 gallons of water. Promotes rapid growth. 3-oz. pkg., \$1.00; 1 lb., \$4.00.

Tobacco Dust. Finely ground. 25 lbs., \$1.50; 100 lbs., \$4.00.

Fertilizers

Pulverized Sheep Manure. For greenhouse crops, hotbeds, lawns and many other uses. 50-lb. bags, \$1.50; ton, \$44.00.

Pulverized Cow Manure. Wizard brand. Used by many growers for flowers and vegetables. 50-lb. bags, \$1.50; ton, \$44.00.

Nitrate of Soda. Can be put on the land before seeding or applied as a top dressing later. Promotes leaf growth. 100-lb. bag, \$3.50; ton, \$63.50.

Steamed Bone Meal. Excellent for flowers and vegetables. Sprinkle lightly around bushes and shrubs. 100-lb. bag, \$4.00; ton, \$72.00.

Freight or hauling allowance from store, \$2.50 per ton.

5% discount allowed for cash payment.

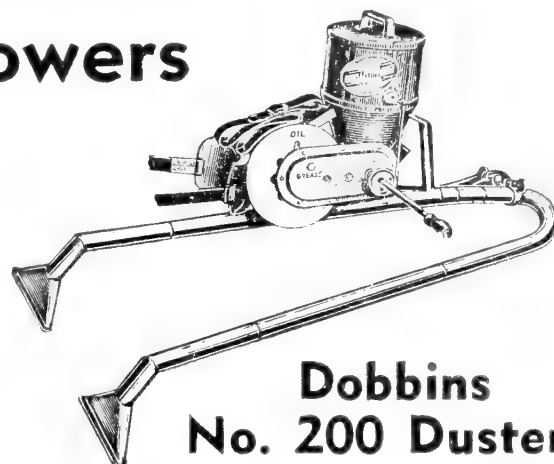

Sprayers and Blowers

Dobbins No. 34G Sprayer

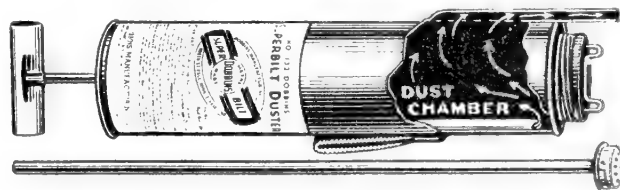

Capacity, 3½ Gallons.

This Superbilt Bighead Sprayer provides a large opening for quickly filling and cleaning out the tank. The pump plunger develops a large amount of air per stroke. The tank is made of heavy galvanized steel, riveted, beaded and soldered, and tested for high pressure. Brass extension rod with aphid angle nozzle permits spraying underneath the leaves. A handy machine for the field, in the barn, or around the house. Price: \$7.50.

Dobbins No. 200 Duster

This Duster makes a very desirable machine for dusting Beans, Cabbage, Melons, Potatoes and other low-growing crops. The dust can be blown forward or backward. By using the return bend elbows the discharge will be at the rear. Dusting 2 rows at a time saves many hours of labor. Adjustments for row widths, height of crop and flow of dust are easily made without the use of tools. Price: \$17.50.

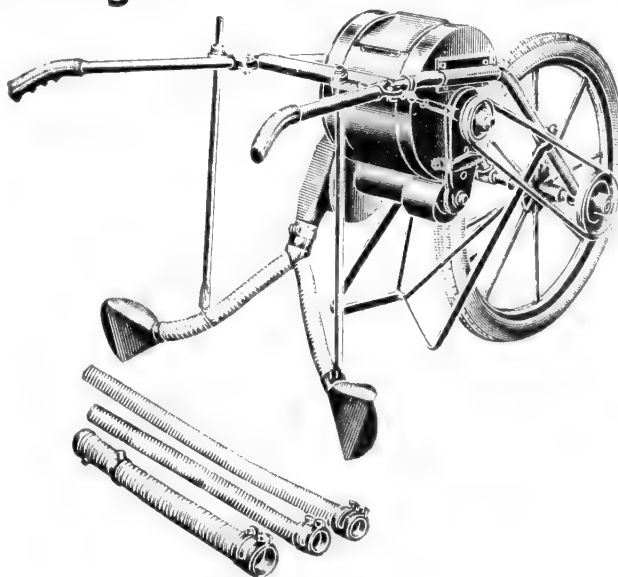

One-Shot Hand Duster

Delivers powerful load of dust with every stroke. Suitable for dry dusting only. Dust chamber holds about 1 pound. Price: \$1.50.

Messinger Wheelbarrow Duster

A one-man, traction type duster for all row crops such as Potatoes, Tomatoes, Beans, Cabbage, etc.

The big rubber-tired wheel carries all the weight. The flow of dust is regulated by a small lever on the side of the hopper. The dust discharge is at the rear—no walking through a cloud of dust.

Tubes and Nozzles are adjustable for rows 12 to 72 inches apart and in any height from ground to 36 inches.

Capacity of hopper, 12-15 lbs. Empty weight, about 65 lbs.

Model HT2 (2 row) with 2 tubes and 2 nozzles. \$42.00.

Model HT4 (2 row) with 4 tubes and 4 nozzles. \$53.00.

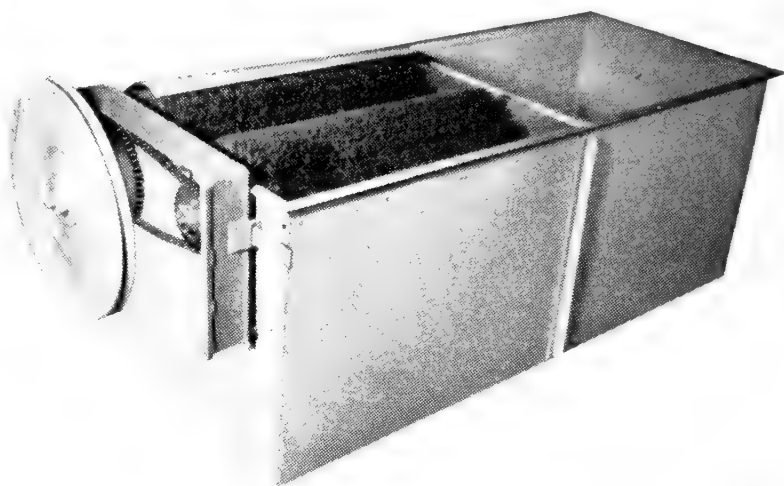

Washers - Seeders - Fertilizer Drills

Cicero Bunch Vegetable Washer

A valuable asset to growers of bunch vegetables. Washes off the dirt and polishes the goods while the operator holds them by the tops, usually 4 bunches at a time. No running water required. Just fill the tank and go ahead. Several hundred bunches can be washed without changing water.

Tank is 5 ft. long, 2 ft. wide, and 2 ft. deep; made of heavy galvanized metal with seams riveted. 2-in. drain plug in bottom. Well painted inside and out.

Brushes are 24 inches long and 10 inches in diameter, revolving at a speed of about 160 revolutions per minute. Steel sprockets and roller chain are used and Zerk grease fittings installed where needed.

Price, with 19-inch groove pulley \$135.00

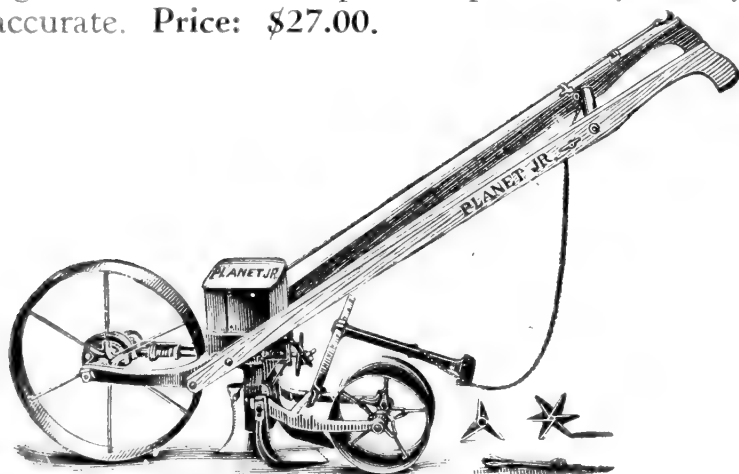

We can furnish "V" belts from 68 inches up to 144 inches in length. Weight, less motor, 180 lbs.

Master Electric Motor, 1/2 H.P. \$35.00

Weight of motor, 63 lbs.

No. 5 Planet Jr. Seeder

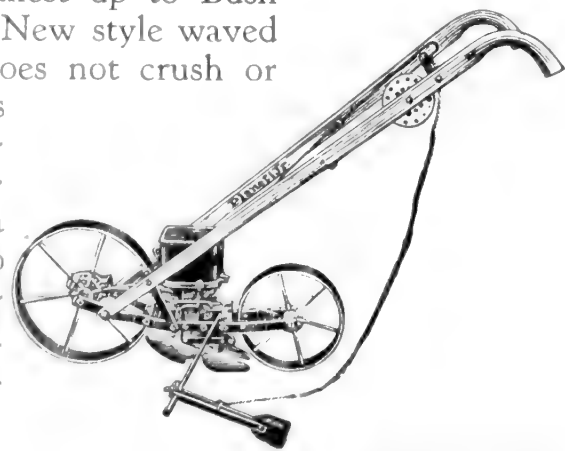

This machine will sow almost any flower or vegetable seeds in continuous rows or in hills at regular intervals. Simple in operation yet very accurate. Price: \$27.00.

No. 5 Seeder

No. 300 Planet Jr. Seeder

The ideal machine for the market gardener. Drops evenly and accurately any vegetable seed from the smallest up to Bush Lima Beans. New style waved feed wheel does not crush or break Beans or Peas. Hopper can be removed in a few seconds to empty left-over seeds. Price: \$27.50.

No. 219 Cultivator with Fertilizer Attachment

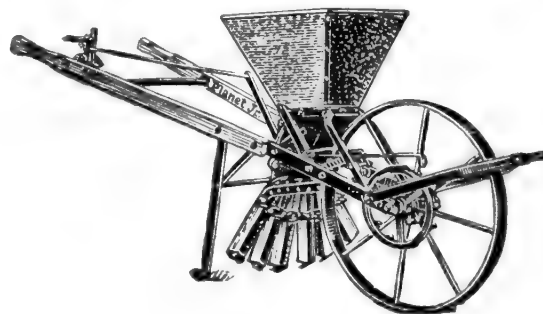

This handy machine answers the call for a light, inexpensive, practical tool for side-dressing growing crops. Small enough to go between 12-inch rows. It will handle nitrate and commercial fertilizers.

Price complete . . . \$14.00

Fertilizer attachment only 9.25

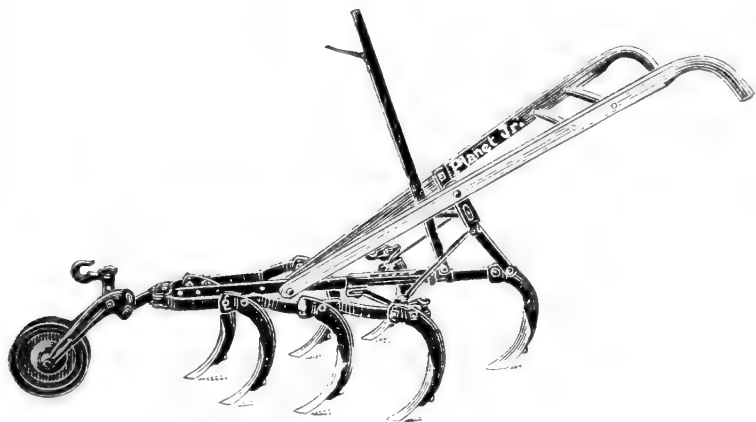

No. 220 Planet Jr. Fertilizer Drill

A new model fertilizer distributor, which will do fine work.

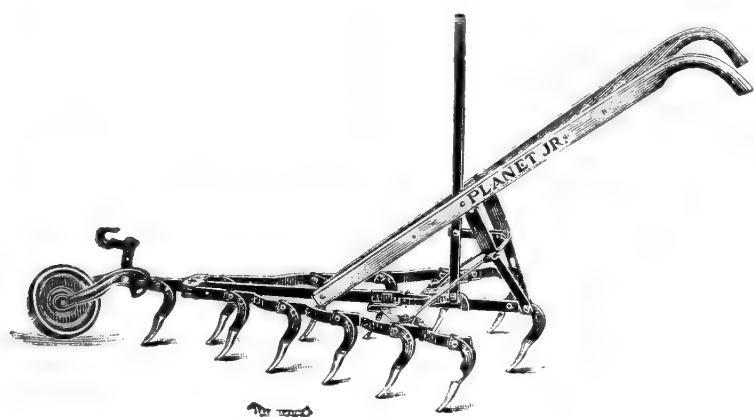

Operates like a wheelbarrow, will sow 100 lbs. to over a ton per acre. Feeds the material through 6 galvanized pipes. These are adjustable, capable of covering a strip 30 inches wide. Seldom clogs up. Price: \$37.80.

Planet Jr. Tools

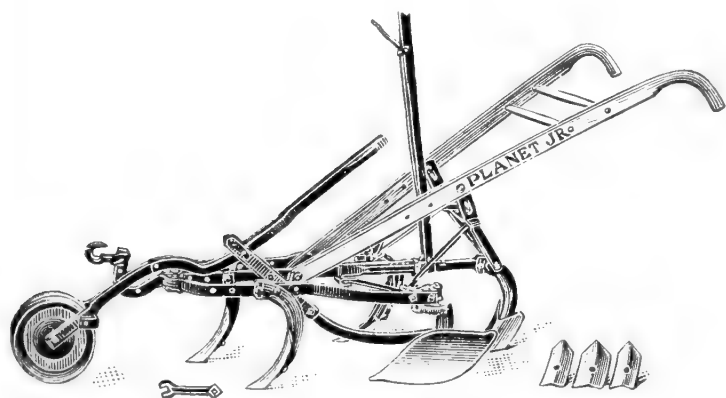

No. 83 Cultivator

The Seven-Tooth Cultivator has gained in favor, due to the fine work it does; weeds have a very small chance to slip by when these seven shovels are in operation. We recommend this as a valuable tool. **Price: \$18.00.**

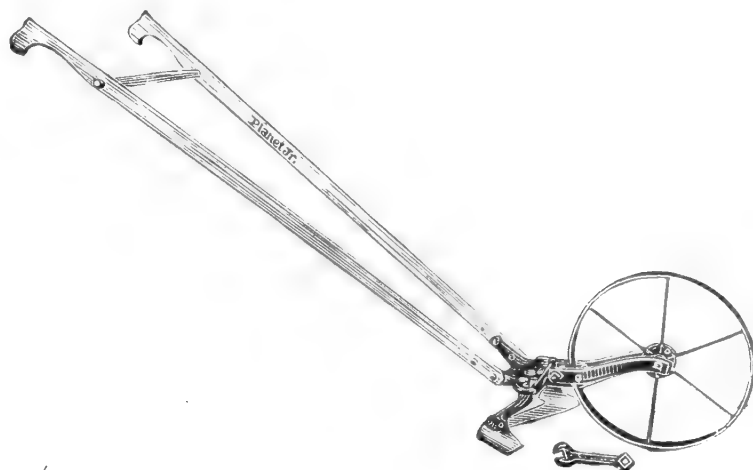

No. 91 12-Tooth Harrow

This machine gives excellent satisfaction in early summer, when plants are small. Breaks the crust on the ground without covering the tender plants, at the same time destroying the first crop of weeds. **Price: \$16.75.**

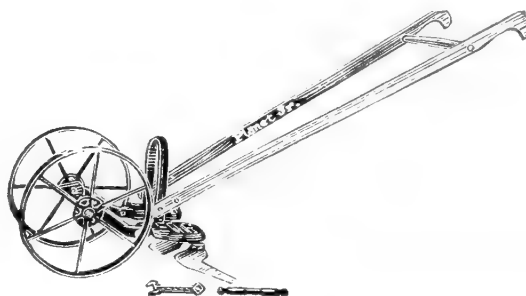

No. 8 Horse Hoe

For thorough cultivation this machine has no equal; it can be used for plain cultivating or for hilling work in Corn, Potatoes, etc. The lever wheel and depth regulator make it very easy to operate. **Price: \$21.00.**

No. 18 Single Wheel Hoe

For cultivating small crops the No. 18 is just the thing; simple but very effective. Thousands of gardeners are using them profitably. **Price: \$8.40.**

No. 13 Double Wheel Hoe

To those who like a double wheel cultivator we recommend this machine. The two wheels make the going more steady. **Price: \$11.95.**

PLANET JR. TRACTORS

Model HT with Gang and GT-2 Cultivator

The Planet Jr. Tractor is known for dependability and low cost of operation. With ordinary care it will last many years and will earn its cost many times over. It handles so easily that anyone can quickly learn to use it. The equipment shown at left makes cultivating Cabbage, Corn, Peppers, Tomatoes and like crops a pleasure. A wide variety of other attachments is available.

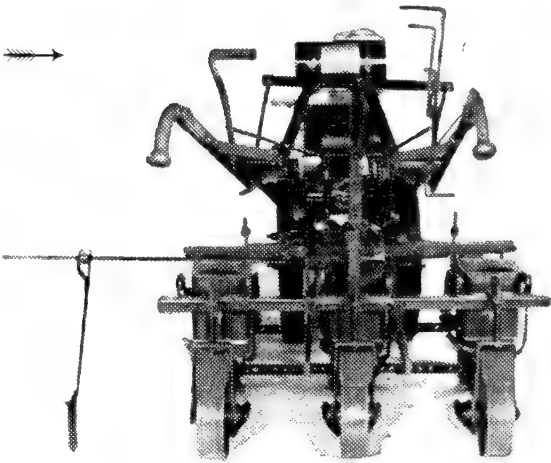

Price as shown with 3 H. P. engine: \$445.00. With 4½ H. P. engine: \$471.00.

Model HB Tractor with 3-Row Seeder

The Seeder Units float independently to take care of unevenness of the soil and to assure uniform depth of planting. Hooks on or off the tractor in less than one minute. Each hopper holds about five quarts of seed.

- Tractor Only. With iron wheels\$375.00
- Three-Row Seeder 102.00
- Extra Seeder. To make four rows, with parts to attach 30.00

For Super-Quality and High Yield Order Early Calwonder Pepper

Electric Tying Machine

The Felins Electric Tying machine is a great time saver. Will handle 6- to 16-ply cotton twine as well as No. 13 and No. 17 braid. Is equipped with a $\frac{1}{4}$ H.P. electric motor, 110 volts. Top speed 45 bunches per minute. Price: \$170.00, prepaid.

Felins Foot Power Machine

Like the electric tyer this machine is well constructed, dual roller bearings being used where needed. Ties 6- to 16-ply cotton twine and No. 13 braid. Illustrated circular sent on request. Price: \$88.00, prepaid.

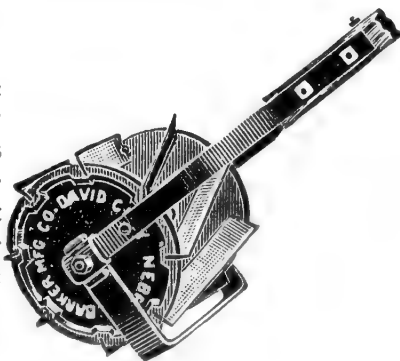

Lang's Hand Weeder

This little tool is handy and useful throughout the season. Price: 30c each; 3 for 85c; doz., \$3.25.

Barker Weeders

Operates like a lawn mower. Used when the plants are young, does not cover up the seedlings as it throws the dirt backward, pulverizing the crust on the soil at the same time. New style machine has closed drum inside of revolving blades. Available in three sizes.

8½-inch width, with drum	\$8.95
9-inch width, no drum	9.25
10-inch width, with drum	9.65

Hotbed Glass, Putty, Paper Pots, Etc.

BOARD OF EDUCATION
JOHN CASAZZA PRESIDENT
CHARLES M. PHILLIPS VICE PRESIDENT
WILLIAM F. CASEY
FLOYD A. POTTER SECRETARY

Mr. E. Olshansky
Science Products Company
6411 S. Kenwood Avenue
Chicago, Illinois

Dear Mr. Olshansky:

NO-SEED TOMATO HORMONE,
follows:

I have supervised the application of your product, NO-SEED TOMATO HORMONE, on a half-acre of tomatoes with results as follows:

- (1) To date we have had an unusually cool season in South Jersey. Tomatoes are ripening slowly, far behind the schedule of other years. First sets were hit by driving rains and chilly nights. The first set of blossoms treated with NO-SEED developed approximately 90% fruit. Plants not treated developed a maximum of 50%.
- (2) Treated plants had an earlier fruiting by 4 to 6 days.
- (3) There was no question about taste. The hormone produced tomatoes considerably sweeter than those untreated. People who have tasted the fruit have asked for more of the same kind. Women who have canned claim the tomatoes better than ANY variety they have ever produced. This was no doubt due to the full pulp without seed.
- (4) I figure there was an increase of 2000 pounds of tomatoes on this half acre in comparison to the untreated half. Had this particular farmer used a larger quantity of NO-SEED, there is no question that the poundage would have been far greater.
- (5) Tomatoes treated with NO-SEED appeared to have less black rot, less cracks, and were of larger size.

I shall recommend this product to the local tomato growers for next season's planting. I think this hormone will give the tomato grower extra income with an earlier and tastier vegetable. Next year I will make experimental tests on other vine crops and fruits.

Sincerely,
William Powers

Spray NO-SEED on Tomato flowers with an ordinary sprayer. That's all you have to do. This scientific hormone spray gives you—

1. Earlier Tomatoes
2. Increased Fruit Set
3. Greater Yield
4. Meatier Tomatoes
5. Sweeter Tomatoes
6. Seedless Tomatoes

Small, \$1.00 bottle makes gallon of spray solution; enough for the average kitchen garden for one season.

\$2.50 bottle makes 4 gallons. Will treat 1/2 acre or more.

\$7.50 bottle makes 16 gallons. Will treat 2 to 3 acres.

Larger amounts available on request.

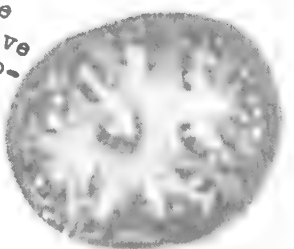

Also effective on peppers, cucumbers, egg-plant, and squash.

"A Product of Science"
for the commercial grower.

NO-SEED
PLANT HORMONE
SEEDLESS TOMATOES

Untreated Tomato

Treated with No-Seed Plant Hormone

FACTS ABOUT NO-SEED

WHAT IS NO-SEED

NO-SEED is a scientifically prepared combination of chemicals which has been carefully developed to produce earlier and bigger crops of better and seedless tomatoes and other vegetables. The essential ingredients of NO-SEED have been the subject of much painstaking research in foremost University and Experiment Station laboratories.

HOW NO-SEED WORKS

NO-SEED Plant Hormone induces artificial setting of the fruit. This takes the place of pollination and results in seedless tomatoes. NO-SEED also strengthens the attachment of the flowers to the plants. Thus those flowers which usually drop off early in the season remain on the plant and develop into larger, meatier, finer fruits which mature much earlier. This method of inducing fruit-set results in a more complete setting of each cluster since it does away with the more or less incomplete pollination effected by the natural method, upon which normal fruit-setting depends. The reduction of blossom-dropping and the more complete setting of each cluster account for the higher yield of tomatoes per plant when treated with NO-SEED Plant Hormone.

HOW TO USE NO-SEED

NO-SEED is a concentrate and must be diluted with water before use. Complete instructions will be found on the label of every bottle.

JUST SPRAY! THAT DOES IT! When the blossoms begin to open and the yellow petals start to fold back spray the clusters thoroughly using standard, clean, spray equipment. Any type of sprayer may be used from the hand spray gun, or the knapsack or wheelbarrow sprayer, on up to power sprayers of all types. The spray equipment should be adjusted so that a very fine mist envelops the flower cluster when the NO-SEED is applied to the plants.

A single application to each cluster will give a high percentage of seedless tomatoes and will give all the other advantages. If some of the blossoms have been sprayed AFTER natural pollination has taken place, then those tomatoes will contain some seed but all the other advantages—earlier—larger—tastier — meatier tomatoes will still be obtained and in much greater yield. In repeat sprayings it is natural that the spray solution will also fall upon already formed fruits. The indications are that this is beneficial to the fruits in that the occurrence of black rot and cracking has been reported to be materially reduced.

QUANTITY OF NO-SEED REQUIRED

The amount of NO-SEED required to treat an acre of tomatoes will vary depending on the type of spray

equipment used. With the ordinary type knapsack sprayer an acre of tomatoes can be treated thoroughly with 6 to 8 gallons of spray solution. With care, or with a hand spray gun, even less will be required. With power sprayers, more NO-SEED will be required per acre but the cost of the added NO-SEED will be more than compensated for by the time saved in the use of the power sprayer.

WHAT THEY SAY ABOUT NO-SEED

Here are just a few excerpts from the many letters we have received praising NO-SEED:

"My tomatoes grew much larger . . . sweeter . . . meatier and seedless, and I certainly highly recommend this product to anyone who wishes to grow a much finer and better tomato."

J. J. O'Connor, 844-48 West 59th Street, Chicago 21, Illinois

"My tomatoes were larger and better than usual without any seeds."

Harry J. Jordan, 420 Market Street, San Francisco, California

"I sold tomatoes three weeks before anybody else had ripe ones, and got top notch prices. They were wonderful tomatoes, almost seedless, large, smooth, sweet, and thick-meat."

E. V. Hirsch, Oreana, Illinois

". . . it was a very dry season here at the time that the tomatoes were in bloom but I still had some wonderful tomatoes . . . they were a week or ten days earlier than my neighbor next door . . . we both went to the greenhouse the same day for plants.

. . . the first that we picked were entirely without seeds, you might say the first half of the crop. I would like you to see some in glass with no seeds at all."

Guy J. Black, 338 Grand Avenue, Rockford, Illinois

"NO-SEED was utilized in several ways by the writer . . . My own outdoor garden had tomatoes set on the vines when early, cool, rainy weather resulted in the dripping of all blossoms on unsprayed plants. The result: ripe fruit before everyone . . . The set all season long was materially heavier than unsprayed plants of the neighbors.

At the present time my dwarf plants in the greenhouse are loaded with tomatoes, despite the absence of bees—thanks to NO-SEED . . . We also used it on Latham raspberries and got a heavy set of fruit.

W. E. L. Lush, Garden Editor, The Register, New Haven, Conn.

"I used NO-SEED in several different ways in my garden on tomatoes and had the first ripe tomatoes in my neighborhood. Each of the first blossom clusters set 3 to 5 tomatoes; usually the first blossom cluster fails to set.

On one plant, I sprayed the blossoms five different times during the season. The plant set, Landreth variety, more than 200 tomatoes . . ."

C. M. Drage, Ft. Collins, Colorado

AMERICAN "JUNIOR" BUNCH VEGETABLE WASHER

The "Junior" Bunch Washer must be seen and used to be fully appreciated. Will wash 250 dozen bunches of Beets, Carrots, Green Onions and other bunched vegetables per hour without damage to foliage or roots. Labor costs are cut in half by doing away with unnecessary handling. Floor space needed four by seven feet. Weight about 650 lbs. **Price: \$435.00, f.o.b. factory.** Pump not included.

AMERICAN CONTINUOUS FEED ROOT WASHER

One of the sturdiest, most practical washers ever built. The roots are fed into the chute at the upper end. The cylinder is mounted on rollers and placed at an angle so that when the drum revolves the roots move toward the lower or discharge end. A perforated pipe in the cylinder serves to supply the necessary water. Floor space required three feet by fifteen feet. **Price: \$380.00, f.o.b. factory.** Pump not included.
